

SCHOOL PARTNERSHIPS

We are looking to partner with schools across Adelaide to deliver our programs. Our Head Coach is a qualified teacher and our programs have been specifically designed to meet the needs of schools.

HOW MIGHT YOUR SCHOOL BENEFIT FROM A C.A.R.D.S PROGRAM?

The C.A.R.D.S approach focuses on **higher-order skills** applicable to both other sports and wider life, enabling transfer to students' classroom learning.

Our key values help foster **positive learning environments** and enhanced motivation.

We adopt a nonlinear pedagogy approach that is **student-centred**, equipping learners with twenty-first century competencies and helping them make connections across different ideas, disciplines and content knowledge.

Our emphasis on play and physical literacy promotes student health, happiness and wellbeing. The physical literacy component of our program is backed by research, with many schools and sporting organisations across the UK incorporating it into their programs.

All our Coaches are highly accredited and have Teaching, Coach Education, State Program and Technical Director experience.

To continue to develop our programs, we collaborate regularly with coaching, teaching and development experts, both locally and worldwide.
